

Cleanroom Products Series

Cleanroom Packing Bag

Our Cleanroom packing bags are made from pure polyethylene (PE) polymer which exhibit high strength, good solvent resistance and designed for Class 10 Cleanroom applications. Our bags comply with our strict cleanliness and strength standards as tested in our in-house M&P lab, ensuring that we comply with our customer's requirement.

Features:

- 1. High level of cleanliness, very low particle counts.
- 2. Very low Non-Volatile Residue (NVR) and ion content.
- 3. Low Outgassing.
- 4. Free from organic contaminants, such as silicone, Amide, and DOP.

Scope of Application:

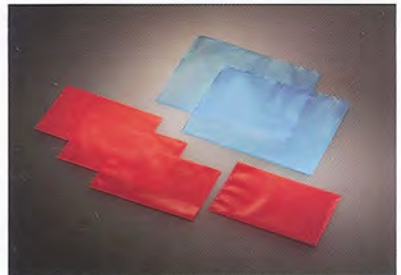

Used as container bags for pharmaceutical products, hard disk drives, semiconductor products, microelectronics products, and components used in the aerospace industries.
